Mrs. Mary Sypias  
Deputy Registrar, City of Rochester  
111 Westfall Road  
Rochester, NY 14602

Dear Mrs. Sypias:

In accordance with our telephone conversation today, we are writing to ask you to assist us by searching your vital records for the death of

who died in  
November or December, 1975  
in a Rochester, New York nursing home.

The Center for Human Radiobiology, supported by the U. S. Energy Research and Development Administration, is conducting a long-range study of persons who have been exposed to radioactive materials. The purpose is to increase our basic information about the toxicity of radioactive substances. Certain unexposed persons are also being followed; these serve as controls.

We prefer the best possible photocopies of the original certificate, including any amendments, but will accept transcribed certification if nothing else is available. Please send two copies to H. A. Schultz at the address below.

It is my understanding that your office does not charge other government agencies for this service.

Very truly yours,

Harvey A. Schultz  
Curator of Records
